# 1. Release 3.7.1

This section briefly lists changes to AIOps for this release.

## 1.1 RELEASE HIGHLIGHTS

---

None with this release.

## 1.2 BUGS

---

- [AP-30456] - The issue with missing tags in automation matchers has been resolved, ensuring automations now executes as expected. The change was implemented in the automation management section of the AIOps platform, accessible at the specified URL. This fix was necessary to address a problem where Alliance Bernstein's automations failed due to missing tags in matchers. While the change primarily impacts the backend systems, it directly supports customer-facing automation processes, enhancing reliability for customers like Alliance Bernstein.

## 1.3 EPIC

---

None in this release.

## 1.4 STORY

---

None in this release.

## 1.5 TASK

---

None in this release.
