AMELIA Research & Development	1.0	August 12, 2024	Added tickets for 3.3.1 release	Yes

1. Release 3.3.1

This section briefly lists changes to AI Ops for this release.

1.1 RELEASE HIGHLIGHTS

1.1.1 Rollback to a Previous Version

Database schema is not compatible with previous releases. Once updated, it is not possible to rollback to the previous version without restoring from the backup.

1.2 NEW FEATURES

None in this release.

1.3 ENHANCEMENT

None in this release.

1.4 BUGS

- [AP-29667] - A critical issue has been fixed. Automation Matchers' priority could mistakenly change to 0 or a negative value. This fix ensures proper handling of priority values. It prevents errors when adjusting priorities. The change mainly affects backend processes. But it directly impacts the "Priority Adjustment" feature in the Automation Matchers interface.

1.5 TASKS

None in this release.
